**PROPERTY TAX REVENUES**

Property Tax revenues are the largest single source of operating revenues. This tax is levied based on the assessed value of various types of property including:

- Real property (land, structures, and lease-hold improvements),
- Personal property (business equipment, excluding inventories for resale) and
- Public utility property (real and personal property owned by utilities and organizations regulated by the State)

In 2013 Memphis' assessed value of real property

- 51.01% Residential
- 36.14% Commercial
- 12.29% Industrial
- 0.07% Farm
- 0.49% Multiple

**Assessment Percentage of Appraisal**

Residential	25%
Commercial	40%
Industrial	40%
Public Utility	55%
Farm	25%
Personal Property	30%

The assessed value of a residential property with an appraised value of \$100,000 would be \$25,000 (.25 x100,000), while a commercial property of the same appraised value would have an assessed value of \$40,000 (.40 x100,000).

Tax rates are set by the Council through the annual budget process. These rates are set as necessary in order to fund a balanced budget that provides services believed to be necessary and affordable.

The City Treasurer generates tax bills based on the following information: the assessed value of the property and the tax rate to figure each property tax bill. That office also collects the taxes.

To calculate the property tax bill, the assessed value is divided by \$100 and the result is multiplied by the tax rate. For example, a residential property appraised at \$100,000 would be assessed at \$25,000 (the \$100,000 appraised value times the 25% residential assessment ratio). With a tax rate set at \$3.40, the calculation is:

$$\begin{aligned} \text{tax} &= (\$25,000/\$100) \times \$3.40 \text{ per } \$100 \\ &= \$250 \times \$3.40 = \$850.00 \end{aligned}$$

Property tax bills are mailed to property owners and, if taxes are paid through an escrow account, also to the mortgage holder. This normally occurs by July 1. Tax payments are due by the end of August.

Property Tax revenues along with other local tax sources provide the City with the largest source of revenue to the operating budget.

Property appraisals are done by the Shelby County Assessor of Property, except for public utilities which are assessed by the Tennessee Regulatory Authority. Appraised value is the estimated market value based on a point in time. Certain properties are exempt such as government, religious, charitable, etc.

Historical property tax rates are displayed in the table below.

## Authorized Complement Discussion

Authorized Complement is the total number of positions approved for a division. All authorized positions are funded, however funding is reduced by the average vacancy rate for the respective division to arrive at the final budget level for personnel.

Notable authorized complement changes from the adopted FY2016 budget are as follows:

**Executive Division** – The complement increase includes positions to restore the Civilian Law Enforcement Review Board (C.L.E.R.B.)

**General Services** – The complement increase represents the addition of three positions from a small operational fund that has been absorbed into the general fund. Four positions were added to service a new building that is being purchased by the City to house the Police command staff and other divisions that are currently renting space.

**Police Division** – The complement increase is 78 positions. Police will implement new staffing for PST's (Public Safety Technicians). These 30 positions will respond to traffic incidents and free commissioned officers for more urgent matters. Police will also increase its complement by adding inventory clerks (9) to also relieve commissioned officers for other duties. New recruits make up the remaining notable additions to the Police Division.

**Sewer Fund** – The complement increased by 20 positions in response to manpower needs required to execute the Consent Decree mandated from the federal government. Sixteen positions were added to respond to the increasing needs of sewer maintenance.

Other division changes not noted above are the result of the permanent elimination of vacancies or minor structural adjustments.

## 2016 Capital Improvement Budget Process

The Fiscal Years 2016-2020 Capital Improvement Program (CIP) is a multi-year plan for capital expenditures to replace and expand the City's infrastructure, vehicles and equipment. For program purposes the City defines a capital improvement as a major improvement or acquisition costing over \$50,000 that will last 10 years or more. The program is updated annually to reflect the latest priorities, updated cost estimates and available revenue sources.

The purpose of the CIP is to outline the funding for capital projects and capital acquisitions that will be of a long-term benefit to the citizens of Memphis. Because projects in the CIP have long term benefits, they are financed over a longer period of time. As a result, present and future users pay for the projects.

Preparing the Capital Improvement Program requires identifying the various sources of revenue for projects such as general obligation bonds, federal grants, state grants, private funds and Capital Pay As You Go. Each project must be evaluated as to its impact including the operational budgetary impact.

The CIP process begins in October with the submission of projects by each Division to the CIP committee. The CIP Committee is comprised of various Division representatives of the City's operations. The CIP Committee evaluates, scores and ranks projects by priority. Projects are ranked using various criteria such as the amount of funds available, importance to the overall mission of the Division, and strategic priorities of the City. Projects with the highest priority receive the available funding. The budget plan is reviewed by the City's bond counsel and the Mayor, who will adjust final priorities. Any final adjustments are then incorporated. The final proposed CIP budget is presented to the City Council in April.

Adoption of the CIP budget by the City Council allows for the allocation of funds for the first year of the program. The **Capital Improvement Budget** is the annual allocation to the CIP that is set aside to fund major construction projects, acquire property, purchase equipment and fund ongoing capital programs for the City. The City attempts to budget annual G. O. Bonds specifically at an average of \$65.0 million per year. Specific language on how to appropriate and spend construction funds is contained in the CIP resolution. Projects allocated in previous years' Capital Budgets, that have been delayed, may be reprogrammed, according to the priorities of the administration for spending in the new plan.

## Financing the Capital Improvement Program

The City's proposed Capital Budget is \$188.9 million in total allocations for FY 2016. Listed below are our major sources for Capital Funding.

### Long Term Debt

General Obligation Bonds, excluding G.O. for Storm Water which will be paid by the fund, are \$61.8 million or 32.73% of the total revenue for the FY 2016.

### Federal Grants / State Grants

Federal and State grants represent \$22.0 million or 11.66% of the revenue in the FY 2016 Capital Budget. The majority of these Federal funds are for MATA projects and Public Works projects that qualify for Federal grants. State grants represent the State-matching portion of the MATA funds and Public Works projects that qualify for State funds.

### Capital Pay-Go's

The Sewer Fund current projects are funded by Capital-Pay-Go or Clean Water State Revolving Fund (CWSRF) loans. Projects funded by "Capital-Pay-Go" allocations represent internally generated funds. Sewer project funding is not represented in sewer bonds for the second year in a row. A CWSRF loan is a line of credit which is available for the Planning, Design, and Construction Phases of wastewater facilities.

# CAPITAL IMPROVEMENT PROGRAM

---

The funds may be used for all three phases in any combination. Eligible projects include new construction or the upgrading/expansion of existing facilities and may encompass wastewater treatment plants, pump stations, force mains, collector sewers, interceptors, elimination of combined sewer overflows, and/or nonpoint source pollution remedies.

## **Capital Improvement Budget Highlights**

Spending that aligns with current priorities is focused on projects that enhance the City's economic development strategy, projects that leverage federal or private funding, projects mandated by law, and projects that maintain existing facilities. The FY2016 CIP Budget places a strong emphasis on road paving as the administration has included \$14.8 million in GO Bond funding in the capital budget.

Highlights of other priorities are:

**The Fire Division** - Funding made available for construction repairs on all fire stations and to purchase personal prevention equipment.

**The Police Division** – Funding made available for the purchase of In-Car Videos/GPS, a Mobile Command Unit and Communication Power Supply.

**The Public Works Division** -Funding made available to pave more than 400 lane miles of streets each year including ADA ramp improvements, and several road projects. The **Stormwater Fund** CIP budget will allow the City to make major investments in drainage infrastructure throughout the City. The **Sewer Fund** projects are for the repair and replacement of sewer infrastructure, new sewer connections and improvements to the treatment plants.

**The General Services Division** - The FY2016 GS funding features the Walter Simmons relocation project. Funding is also proposed to provide for major ADA improvements, and minor improvements to various City buildings. This budget also reflects \$9.6 million for City-wide vehicle and equipment purchases. Included in capital acquisition is funding for 115 police vehicles and 20 PST vehicles for police traffic responders. This area also includes requests funds for 3 fire engines.

**Housing and Community Development** - Budget funding included for MHA-Foote Cleaborn Future Hope and Mason Village COGIC projects.

**The Engineering Division** - Funding is included for replacement of traffic signals and transportation improvements.

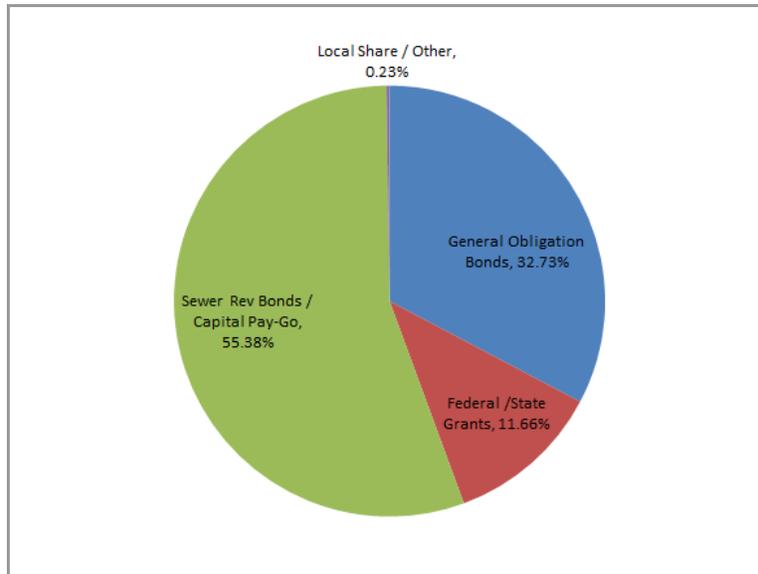

**Riverfront Development** - Funding from FY2015 has been reprogrammed in the FY 2016 budget for repairs and replacement of historic cobblestone paving, water taxi system, and railroad crossing/ADA improvements.

**The Memphis Area Transit Authority** - This budget is heavily leveraged by Federal and State funding. This year's budget includes, repairs to the trolley system and infrastructure and also includes the purchase of rail vehicles.

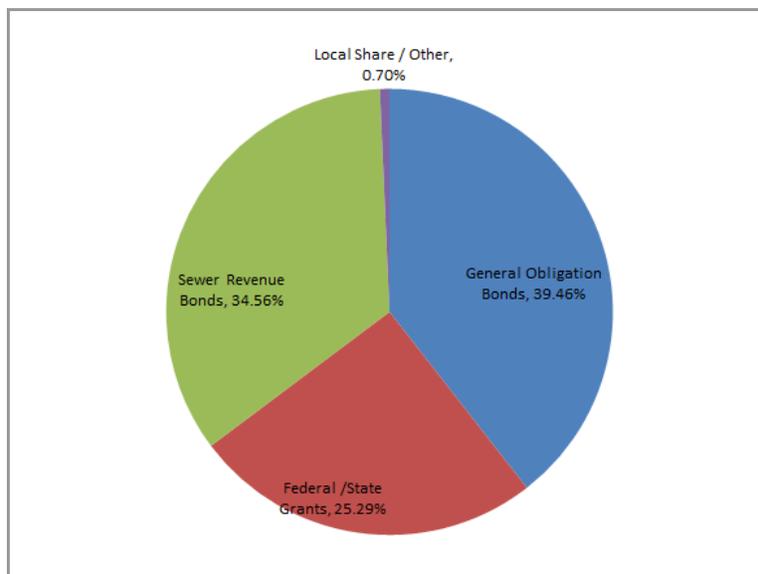

**The Parks and Neighborhoods Division**- Funding will provide rehabilitation to the Pink Palace Planetarium and Museum in addition to various other city parks and facilities.

## The Impact of Debt Service Cost and Operating Cost for FY 2016

The financial impact of CIP projects is the annual cost of debt service. Debt service projects impacting the operational cost result from the issuance of General Obligation (G.O.) Bonds. The property tax rate finances the debt fund, which pays the debt service. As debt increases, larger portions of property tax revenue is assigned to debt, and therefore, reduces resources for operating costs.

This document lists all CIP projects totals for FY2016. All projects that are above a total cost of \$1.0 million in the CIP program for FY2016 are detailed below along with their related G.O. funding amounts, and the associated debt service payments and operating budget cost. The debt service payments will average 20-30 years depending on the project. Projects not detailed are either under \$1.0m or are considered as replacement investments for fully used existing capital assets. The cost to maintain these assets are in the current funding base. Therefore, these projects are budget neutral.
